

Convoy Monstawash is a super-concentrated commercial vehicle cleaning agent. Monstawash is biodegradable and leaves vehicles brilliantly clean with a showroom shine.

Directions

Concentrate: Dilute 1:9.

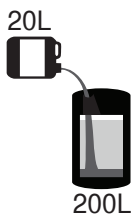

For 2Lt

Add 2L of concentrate to 18L of clean cold water to make 20L of concentrated cleaner.

For 20Lt

Add 20L of concentrate to 180L of clean cold water to make 200L of concentrated cleaner.

Application: Further dilute the solution 1:40 for manual cleaning with a bucket and brush, or through a waterblaster or other automatic dilution unit. Ensure vehicle is rinsed thoroughly to finish. For a showroom shine, dry surfaces with a clean dry microfibre cloth or chamois. Avoid washing in direct sunlight.

Users need to avoid prolonged contact with this product or its solutions.

Features & benefits

- ▶ Leaves vehicles with a gleaming finish
